

WHAT WE DO – Providing Holistic & Integral Education

Our Solution

We have developed some interventions which can support govt. schools in merging the two seemingly different needs – **Conceptual Learning** and **Holistic Personality Development** (awareness about culture and nation, confidence, communication, physical development, empathy, inter-personal and intra-personal abilities etc.) The interventions are designed such that it exposes children to interesting processes and provides opportunities to explore knowledge, ask questions, and work in a team.

Objectives

- To improve learning environment & teacher student relationship.
- To strengthen connect between theory and practice in classrooms.
- To explore alternate ways of learning with students (travel as education, learning by working, using technology for learning, communicative language teaching and task-based language teaching, etc.).

INTERVENTIONS

1. **साथी** - Supporting primary infrastructural needs of the government schools for effective functioning
2. **उत्कर्ष** – moving towards excellence through sports & yoga
3. **अध्ययन एवं संवाद केंद्र (ASK)** –making knowledge accessible in the villages via an after-school center
4. **अन्तःप्रेरणा** – dialogue and workshop with teachers – role-awareness & efficiency
5. **सन्मति** – children and youth coming together to discuss & solve local problems
6. **गौरव** – Find a hero for your class and school (based on certain parameters after discussion in class), understand hero's characteristics and imbibe them through small steps
7. **कहानी के बीते दिन** – reviving storytelling, value education and life-skills through storytelling
8. **विमर्श** - Regular interaction with parents to receive and share feedback
9. **संभावना** - Enabling innovations and sharing entrepreneurial skills and knowledge via 'computer & internet'
10. **राही** - Using travel as education
11. **अभ्यास** - Improve learning levels in Maths and English
12. **विवेक विज्ञान उत्सव** – learners' event/festival where key stakeholders are invited (culmination of all the interventions done during six month period)
